

ICINGA CAMP MILAN

Kick off your experience in inspiring approaches and new futuristic ideas in IT monitoring. The first Italian Icinga Camp organized by Würth Phoenix will take place on September 26th in Milan. It is a platform for the community to come together to learn and share about their experience and challenges.

EXPERIENCE

Real life implementations, best practices and insights from the field. From continuous monitoring to point and click configuration.

TOOLS

Integrating with your existing DevOps tool stack, automation with Cfgmgmt tools and data storage

TECHNOLOGY

Monitoring any infrastructure and any application with the latest technologies. Updates and news from the Icinga universe
